

INTRODUCTION PACKAGE

WHO WE ARE

24/7 Cranes and Rigging is a family owned and operated business established by Patrick Connolly. Patrick is originally from Limerick, Ireland, and had over 20 plus years of experience in the heavy construction, demolition and excavation industry before embarking on this new venture. We recruit staff that has a professional background familiar with cranes, demanding engineering projects and heavy duty construction equipment. We make sure that each person we bring on aboard inherently understands the importance of safety on the job-site and that there can be zero tolerance for taking any unnecessary risks in that environment. Our goal is to provide you with the exceptional service every time all while striving to make each and every location safe for everyone involved.

OUR SERVICES

We provide support to many people in a variety of industries and professions. The following is a list of some of the commercial activities that we undertake in providing lifting services but it is by no means limited to it.

- **Emergency Coverage:** We will gladly provide emergency coverage, day and night, for anybody that needs help.
- **General Contractors/School Construction:** We help supply the materials (and the removal) to where it is needed most on the job-site. This material includes concrete, rebar, sheetrock, lumber, brick and block for masonry contractors, windows and steel beams.
- **HVAC Companies:** We provide support for the installation and removal of HVAC units. Additionally, we can provide a flat-bed service for the transportation of these units to anywhere within the Tri-State area. We can also provide short-term storage for these units prior to installation.
- **Cranes/Mechanical hoists/Scaffolding Companies:** We can help with the transportation and set-up of Cranes & Mechanical Hoists. We also provide support to Scaffolding companies for the erection of scaffolding.
- **Energy/Utility Companies:** We provide assistance with the installation of transformers, generators and solar panels. We can help with the installation of pipes and water towers.
- **Arborists/Tree Service Companies:** We provide support to Arborists with the removal or relocation of trees. This service can be crucial during inclement weather conditions where properties can sustain serious damage from fallen trees.
- **Landscaping:** We can help with the location and delivery of fountains, fish ponds, statues and large rocks for your garden.
- **Commercial/Retail/Museums/Art Galleries:** We provide assistance with the installation of windows, signage, awnings and walk-in safes or vaults. We are available to assist Museums and Art Galleries with the location, positioning, and exhibiting of artwork.
- **Residential Delivery Services:** We help with the delivery and location of pianos, hot tubs, furniture, swimming pools, marble, granite, large appliances or any large object that needs to be lifted up or into a house, condo or co-op apartment.
